In areas where applicable, permits must be received before meters can be installed. If CenterPoint Energy construction is NOT required, and weather permits, meters are usually installed within three (3) working days from the date the Move-In (MVI) request is received from your Retail Electric Provider. **Please note: The address must be posted at the new meter location.**

To obtain ESI ID numbers, fax this form to **713-207-9756** or **713-207-9760**.
For meter installation inquiries, call CenterPoint Energy at **713-207-2222**.

Upon receiving the ESI ID number(s), contact your Retail Electric Provider to complete the MVI request(s).
